

Logo

A strong brand needs a powerful symbol. Ours consists of letters with a clear statement of our company's name. It's straight forward and without any hassle, just like us. The graphic icon is called 'the swipe', and represents our dynamic culture, always moving fast forward.

The upper one is our primary logo. This version will be used most of the time, preferably on light(er) backgrounds. When readability becomes an issue, we will switch to the reversed white option.
